

What if your employees could see a doctor on a lunch break without leaving work?

They can with LiveHealth Online!

You know what it's like when your employees need to see a doctor. They may have to take a longer lunch break, work a shortened day or even take a day off. And if they can't get in to see their doctors, they might come to work sick and expose others to their illness. In some cases, they might even go to the emergency room. All of this can hurt workplace productivity and make everyone's health care costs go up.

Introducing LiveHealth Online - the quick and easy way to see a doctor anywhere your employees have an Internet connection.

Now when your employees have health care questions or are under the weather, they don't have to schedule an appointment, drive to the doctor's office or hang around in crowded waiting rooms. In fact, they don't even have to leave their home or work.

LiveHealth Online is a new communications tool that lets your employees talk to doctors online by two-way video on a computer. Doctors can answer questions, make a diagnosis and may prescribe basic medications.

Here's why your employees will love LiveHealth Online:

- They can use it at work, at home, anywhere and never need an appointment.
- It's fast. They can log in and talk to a doctor within a few minutes.
- Doctors are available seven days a week, 24 hours per day.
- It's private and secure, and they can choose a board-certified doctor from an available group.
- When needed, prescriptions are emailed right to employees' local pharmacies, if that information is given to the doctor. (Note: Some states limit prescriptions to in-person visits.)
- It's affordable. Employee members can use the tool, as part of their health plan, at no charge or pay their standard office visit copay. (Options depend on your health plan).
- Employees and family who aren't members can use it too, but pay the full price for the visit. Doctors using the LiveHealth Online tool charge an average fee of \$49.

Here's why you'll love LiveHealth Online:

- Reduced health care costs. When employees choose to see doctors online instead of going to urgent care centers or retail health clinics, everyone saves money.
- Higher productivity. Employees may be absent less and not come to work sick because they can't find time to get to the doctor.
- Less stressed employees. Employees will enjoy how fast and easy it is to see a doctor online and get the care they need.
- High satisfaction rates. Users of online care report high satisfaction results: 92% report a "good", "very good" or "excellent" experience.¹

See how easy it is to get started with LiveHealth Online!

Contact your sales representative for more information and visit livehealthonline.com. LiveHealth Online is not available in all states.

Your employees can use LiveHealth Online for non-urgent matters like:

- Cold and flu symptoms including a cough and fever
- Allergies
- Sinus infections
- Bronchitis
- Urinary tract infections
- Diarrhea
