

Your Rights and Protections Against Surprise Medical Bills

When you get emergency care or get treated by an out-of-network provider at an in-network hospital or ambulatory surgical center, you are protected from surprise billing or balance billing.

What is “balance billing” (sometimes called “surprise billing”)?

When you see a doctor or other health care provider, you may owe certain out-of-pocket costs, such as a copayment, coinsurance, and/or a deductible. You may have other costs or have to pay the entire bill if you see a provider or visit a health care facility that isn’t in your health plan’s network.

“Out-of-network” describes providers and facilities that haven’t signed a contract with your health plan. Out-of-network providers may be permitted to bill you for the difference between what your plan agreed to pay and the full amount charged for a service. This is called “**balance billing**.” This amount is likely more than in-network costs for the same service and might not count toward your annual out-of-pocket limit.

“Surprise billing” is an unexpected balance bill. This can happen when you can’t control who is involved in your care—like when you have an emergency or when you schedule a visit at an in-network facility but are unexpectedly treated by an out-of-network provider.

You are protected from balance billing for:

Emergency services

If you have an emergency medical condition and get emergency services from an out-of-network provider or facility, the most the provider or facility may bill you is your plan’s in-network cost-sharing amount (such as copayments and coinsurance). You **can’t** be balance billed for these emergency services. This includes services you may get after you’re in stable condition, unless you give written consent and give up your protections not to be balance billed for these post-stabilization services.

As described, below, the State of Maine provides protection to patients from abusive billing practices and unnecessary patient fees. It requires providers to alert patients when they have been referred out-of-network.

Certain services at an in-network hospital or ambulatory surgical center

When you get services from an in-network hospital or ambulatory surgical center, certain providers there may be out-of-network. In these cases, the most those providers may bill you is your plan’s in-network cost-sharing amount. This applies to emergency medicine, anesthesia, pathology, radiology, laboratory, neonatology, assistant surgeon, hospitalist, or intensivist services. These providers **can’t** balance bill you and may **not** ask you to give up your protections not to be balance billed.

If you get other services at these in-network facilities, out-of-network providers **can't** balance bill you, unless you give written consent and give up your protections.

You're never required to give up your protections from balance billing. You also aren't required to get care out-of-network. You can choose a provider or facility in your plan's network.

As described, below, the State of Maine provides protection to patients from abusive billing practices and unnecessary patient fees. It requires providers to alert patients when they have been referred out-of-network.

When balance billing isn't allowed, you also have the following protections:

- You are only responsible for paying your share of the cost (like the copayments, coinsurance, and deductibles that you would pay if the provider or facility was in-network). Your health plan will pay out-of-network providers and facilities directly.
- Your health plan generally must:
 - Cover emergency services without requiring you to get approval for services in advance (prior authorization).
 - Cover emergency services by out-of-network providers.
 - Base what you owe the provider or facility (cost-sharing) on what it would pay an in-network provider or facility and show that amount in your explanation of benefits.
 - Count any amount you pay for emergency services or out-of-network services toward your deductible and out-of-pocket limit.

Maine's Surprise Billing Law

The following only applies to Providers within the State of Maine:

A surprise bill is a bill for Covered Services, including emergency services, received by a Member for services rendered by a Non-Network Provider at a Network Provider during a service or procedure performed by a Network Provider, or during a service or procedure previously approved or authorized by us; however, a surprise bill does not include a bill for Covered Services received by a Member if a Network Provider was available and the Member knowingly elected to obtain the services from a Non-Network Provider.

With respect to a surprise bill, a Member is only responsible for what the Member would have paid (any applicable Coinsurance, Copayment, Deductible or other out-of-pocket expense) for a Network Provider. The Non-Network Provider within the State of Maine is prohibited by law from balance billing the Member.

Surprise bills for Emergency Services may be subject to the dispute resolution process provisions under Maine law.

If you believe you've been wrongly billed, you may contact Anthem by calling the number on your plan I.D. card.
